If you are experiencing homelessness and you don't have an address, how do you get a job? What comes first - employment or housing?

Shelters to Shutters is solving this problem unlike any other organization - by providing both simultaneously.

Through direct partnerships with apartment companies, Shelters to Shutters offers full-time employment and housing opportunities to individuals facing homelessness who are ready-to-work and excited for a career in the apartment industry. In return, our apartment industry partners receive high quality, motivated employees that become dedicated members of their resident communities.

Through Your Sponsorship...

You can make a life-changing impact on individuals and families in our local community. Your support provides critical funds for operations behind candidate screenings, local Hiring Events and one-on-one case management support to ensure each participant reaches their goal of returning to economic self-sufficiency.

Each individual S2S moves out of homelessness saves the local community an estimated \$36,000 in related expenses. Now more than ever, we need smart, innovative programs to provide a hand up to a growing at-risk population.
